On behalf of the Rebuilding Together Indianapolis Board of Directors, thank you for your sincere commitment to improving the communities in which we all work and live. Rebuilding Together Indianapolis and the Central Indiana Building Trades have a long partnership focused on our mission of creating homes of warmth, safety and independence for our neighbors most in need. Our homeowners are low-income, typically elderly or disabled that do not have the means to complete critical repairs on their own. Properties must be owner occupied, have no liens, and homeowner insurance in force on the property.

This year, we will be working with the Southeast Neighborhood Development (SEND), with a focus in the Twin Aire area. SEND has an ambitious 5-year plan in place to rejuvenate their area, coupled with the City of Indianapolis plan to build the new Community Justice Center in the same area. Our work within the neighborhood is part of larger plan to revitalize the entire area. Your personal donation of time and talent truly makes this revitalization possible!

Workday Schedule:

- 7:00 am: Registration. Check in with your trade representative. T-Shirts will be distributed to volunteers. Donuts and Coffee will be available.
